- Integrated Science
- Life Science
- Physical Science

Technology

Support Services

Recognizing that students need encouragement and support as they make the challenging transition from childhood to adolescence, we focus on the teacher-student relationship in middle school. Each student is assigned to an advisor who gets to know the student as an individual. Teachers meet weekly to give updates on student progress, discuss problems and challenges, probe opportunities for interdisciplinary connections and explore current educational theory to better serve our youth.

IQRA Bilingual Academy... preparing youth for this life and the hereafter.
